

STC6

12.5" x 35.75" x 15.38" (H x W x D)

Commercially approved open bottle wine & champagne cooler in stainless steel with digital controls and compressor-cooled design for countertop use designed for the refrigeration and display of wine

Highlights:

Commercially listed to NSF-7 standards for use in bars, restaurants, wineries, and other foodservice establishments

Perfect for keeping open bottles of wine or champagne chilled at the right conditions

LED lighting and window offer an elegant display of bottle labels

Product Features:

Commercially approved	ETL-S listed to NSF-12 commercial standards for use in foodservice settings
Automatic defrost	Easy user maintenance with an auto defrosting system, with control panel setting included for defrosting if the cooler is used in areas of high heat or humidity
Control panel lock	Allows you to freeze the control panel to avoid accidental temperature adjustments
Temperature memory function	In the event of power loss, the unit will recover its last setting once power is restored
Temperature alarm	Audible and visual alarms warn if the temperature rises or falls out of suggested range
Internal fan	Fan-forced cooling helps to better circulate the temperature to keep each bottle stored under the right conditions
Adjustable LED lighting	Three light settings and off mode let you access the perfect display conditions for every venue
Display window	Illuminated window lets you display bottle labels
Wide temperature range	Thermostat can be set between 41° and 68°F for proper storage of white, blush, or red wine
