

DRY AGER AND THAWING REFRIGERATOR BOTTOM MOUNT CONDENSING UNIT

Refrigeration System

meat maturation process.

Cabinet Construction

High quality stainless steel interior floor. Galvanized steel top, bottom and rear. 2.5" thick high density polyurethane insulation.

High strength, die-cast door handles.

Four stainless steel shelves per section.
Height adjustable stainless steel clips.

Temperature Control

· Stainless steel hangers and hooks.

process.

Lighting

Doors

Field reversible.
Shelving

Options

Additional shelving. 3" swivel casters with locks. Project Name:

Model #:_

 Bottom mounted, self-contained and fully detachable Blizzard R290 condensing unit uses environmentally friendly, EPA-compliant R290 refrigerant with zero (0) Ozone Depletion Potential (ODP) and three (3) Global

Dual air paths with three electronically commutated (ECM) fan motors optimize circulation and accelerate the

Large capacity, corrosion-resistant condenser and evaporator coils.
Self-maintaining, energy-efficient condensate drain pan requires no external drains or electric heaters.
High performance, auto-reverse condenser fan motor supports compressor ventilation and condenser coil cleaning. Refer to owner's manual for full maintenance instructions.

· PFOA free, ceramic coated aluminum interior walls diffuse infrared rays which enhance the meat maturation

· Shielded LED bar lighting with on/off switch provides bright, high color illumination at lower heat output.

Low emissivity double glass panes and matte finish aluminum door frames for glass doors.

Snap-in magnetic door gasket make cleaning and replacement an easy process.

Factory preset temperature, 35°F. Temperature setting range from 33°F to 54°F. Audible overheat protection alarm for compressor and condenser coil.

Warming Potential (GWP). Blizzard R290 is easily replaceable and requires no on-site brazing.

Full-length air duct system and airflow guard ensure optimal circulation of cold air. Time-initiated and temperature-terminated auto defrost cycle for seamless operation.

Pressure relief devices allow smooth access to cabinet interior when reopening doors.

· Heavy duty stainless steel exterior with rounded corners for a hazard-free workspace.

Four 5" swivel casters with locks on front set and two front leg stabilizers.

· Pre-wired and ready to plug, 115V/60Hz/1Ph, NEMA 5-15P.

· Open spaced interior with no walls between compartments.

Self-closing with adjustable torsion system for a positive seal.

· Multi-function digital controller with easy to read LED display.

 \cdot 3.5" – 6" height-adjustable and interchangeable legs.

· Pre-installed door locks keep your items safe from theft.
